How to use the files

Typography: Beautifully Delicious Script for Tasty Treats; Aegean Breeze for WORLD, menus, and contact. Logo files already contain the original lettering.

01 transparent — websites and overlays. 02/03 light print. 06/07 black backgrounds. 08–12 one-color (foil, vinyl, embroidery). 14 icon when the wordmark is too small. 15/16 Instagram avatar. 13 gold watermark on every product photo.

Do not redraw the script. Do not put the black wordmark on a black photo. Do not replace chocoflan photos with generic macaron/tart stock.
